

ChromaColour September Workshops & Class Schedule

Clay puzzling is a technique developed to introduce everyone to the creative possibilities of moist clay. Playing with moist clay is great fun and a simple way to work with clay without having prior experience. Puzzling is used in the term because the procedure combines pieces of clay to make the final object. The pumpkins are made by placing coils of clay in a mold. This class requires the use of an extruder, like a caulking gun, and is loads of fun. All supplies included. You come back the second time to paint the fired piece at a date of your choice.

**Open to 9 people:
Pumpkin or Pear Project
Thursday, Sept. 23 @ 7 P.M.**

Pumpkin:

Large (1 available @\$60.)

Med. (2 available @\$50 each.)
